MD. TAZIMUL ISLAM

Software Developer

I am an expert specializing in the .NET Core, Laravel framework, and React JS front-end library. I use the PHP and C# programming language, Laravel framework, .NET Core, and React JS front-end library to build and maintain innovative and functional web-based applications that elevate user experience as well as ensure the consistency of HTML, CSS, and shared JavaScript across applications. Seeking a position as a software developer/web developer for accepting new challenges in professional experience. **I always prepare to adapt to new technologies according to my work purposes.**
